PROFILE

Motivated Full Stack Developer currently pursuing a Bachelor's in Business Information Technology at the University of Rwanda. Experienced in building real-world web applications from concept to deployment, covering both frontend and backend. Proficient in React and Next.js for building modern, performant user interfaces and server-rendered applications. Especially interested in backend systems architecture and actively expanding expertise in Java.

TECHNICAL SKILLS

HTML & CSS	JavaScript	Node.js (Express)
Firebase	PostgreSQL	MySQL
Docker	Git & GitHub	React
Next.js	REST APIs	Java (Learning)

PROJECTS

Griinware -- Pharmacy Management System

- ▶ Developing a full system to manage pharmacy operations end-to-end using React for the frontend and Node.js for the backend
- ▶ Features include product management, inventory tracking, and multi-role user workflows
- ▶ Currently in final development phase

EaseRent -- House Rental Platform

- ▶ Built a rental listing platform with React and Next.js, featuring a fully integrated authentication system
- ▶ Implemented search, advanced filtering, and a responsive UI optimized for mobile
- ▶ Supports full user interaction with property listings

CEM Digital -- University Muslim Community Platform

- ▶ Developed a platform using Next.js to facilitate communication and organization within the campus community
- ▶ Focused on accessibility, clean UI design, and ease of use for diverse users
- ▶ Enables sharing of announcements, events, and community updates
